

James St.Clair, CISM, PMP

(703) 727-6332

Stclair.jim@gmail.com

Mr. James St Clair, CISM, PMP is a senior manager in Grant Thornton's global public sector, and focuses on enterprise risk management, IT security, privacy and internal controls. He has 13 years of combined experience in technology risk management, controls assessments and security for public utilities, government agencies and private industry. Prior to joining the private sector, Jim was an officer in the United States Navy.

James is a certified information security manager in ISACA (formerly known as the Information Systems Auditing and Controls Association) and a certified project management professional with the Project Management Institute. He is also a contributor in several professional associations in risk management, to include The Global Association of Risk Professionals, Professional Risk Managers International Association and Association of Government Accountants.
