

**MICHAEL WATSON** is the director of security incident management for the commonwealth of Virginia and works for the Virginia Information Technologies Agency (VITA).

Michael has over 10 years of experience working in the computing field. He obtained his undergraduate degree in computer science from James Madison University and his graduate degree in telecommunications with a focus on security and management from the University of Pennsylvania. Michael is also a certified information systems auditor, a SANS GIAC intrusion handler, and a SANS GIAC intrusion analyst. His main duties as the security incident management director include managing security incidents for the commonwealth of Virginia, evaluating the threat environment, and taking proactive measures against current and emerging threats.
