SPEAKER BIOGRAPHIES

**DAN ALTOBELLI**, CPA, CISA, CEH, is the IT audit manager for the New Jersey Office of the State Auditor. He is responsible for planning, conducting and managing a wide range of information technology audits for the office. In addition, he helped develop and implement the office’s integrated auditing methodology to bring the wonderful world of information technology to the program and financial audit staff and is currently helping to drag them kicking and screaming through the implementation of TeamMate+. He has a bachelor of science degree in accounting from the College of New Jersey and has worked for the New Jersey Office of the State Auditor for the past 16 years.

**PEG BODIN**, CISA, is the assistant director of team IT audit for the Office of the Washington State Auditor. Peg is primarily responsible for overseeing the team that performs data analysis, systems reviews, cybersecurity performance audits, security attestation audits, and forensics for state and local government. Peg has been with the office since 1987 and was a member of the team that designed and created a data analytics Financial Analysis Program, which currently supports over 800 local government audits. Peg is a 1982 graduate of Western Washington University with a bachelor’s degree in accounting and computer science.

**CHRISTOPHER BUSE**, CPA, CISA, CISSP, serves as deputy legislative auditor for the Minnesota Office of the Legislative Auditor, providing oversight of all financial and information technology audit work. Before assuming this role in December 2017, Christopher served as assistant commissioner and chief information security officer for the state of Minnesota’s central technology agency, known as Minnesota IT Services. In this capacity, Christopher was responsible for designing and implementing the enterprise security architecture for state government. He also oversaw other technology leadership services, including geospatial information systems and strategic procurement. Christopher Buse graduated from St. Cloud State University in 1986 with a bachelor of science degree in accounting. Since graduation, he has supplemented his accounting degree with numerous computer science and management information systems courses.

**MIKI CESTNIK**, CISA, is the information systems audit manager for the Montana Legislative Audit Division. She has been in IT audit since she moved to Montana almost seven years ago. Currently she oversees various IT audits, assists the office with data analysis and IT related audit work, and defines the direction of the IS team to meet the office mission to improve accountability, efficiency, effectiveness, and compliance. When not in the office, she is enjoying the outdoors of Montana with her family or running her kids around to various activities.

**KEITH EDWARDS** is a senior audit supervisor with the Michigan Office of the Auditor General where he has worked for almost eight years. Keith obtained his undergraduate degree from Ferris State University in Michigan. Keith is a CPA and CISA. Keith's audit experience with the OAG includes financial, performance, and IT-performance audits. Keith was the supervisor on the Network and Cyber Security Audit.

**SHELLY FANSON**, CPA, CISA, was appointed as an audit manager in December 2010. As an audit manager, Ms. Fanson shares responsibility with the Audit Division administrator for the oversight of information technology audits at all departments and for the oversight of performance audits at the Michigan Department of Agriculture and Rural Development, the Department of Environment, Great Lakes, and Energy, the Department of Natural Resources, and the Department of Transportation. In addition, Ms. Fanson participates in the formulation of audit policy and participates in the presentation of final audit reports to legislative committees. She has a bachelor's degree in accounting from Michigan State University.
BRUCE FLINN, CISA, is an associate principal information technology auditor with the Wisconsin Legislative Audit Bureau, where he performs and leads independent audits heavily focused on IT areas. Bruce graduated from the University of Wisconsin – Eau Claire with a bachelor’s degree in accounting. After graduation, he began working at the Legislative Audit Bureau in 2007 as a financial auditor and transitioned into IT auditing. He obtained his certified information systems auditor designation in 2012.

ALEX GARD, CISA, PMP, received his B.A. in English from Kansas State University in 2003 and earned his J.D. from the University of Kansas in 2008. Four days after surviving the bar exam, he started work at the Kansas Legislative Division of Post Audit. During his tenure, he contributed to performance audits on topics from adequacy of foster care placements to Medicaid costs of hospital emergency room visits to detailed examination of the K-12 special education funding formula. Six years ago, he joined the office’s IT security audit group and has conducted audits of state entities, large and small. He is a licensed attorney in the state of Kansas. He now leads the IT security audit group.

GREG GOGOLIN, Ph.D., is a professor of information security and intelligence at Ferris State University. Dr. Gogolin was the initial author of both the undergraduate and graduate degrees in information security and intelligence, which are ranked in the top 25 nationally. He is a Distinguished Professor and Fulbright Scholar (Universidad de Chile), and has taught in Latin American, Asia and Europe. Dr. Gogolin has received funded research grants from the National Science Foundation, Department of Defense, and other organizations. He has numerous publications, has been cited in the U.S. Supreme Court, and has presented at multiple conferences and locations within the United States and internationally. Dr. Gogolin has trained the cybercrime forces for the Policía de Investigaciones de Chile and the Policía Nacional del Perú. His primary technical and research interests are digital forensics, cyber security and business intelligence.

DANIEL J. LOHRMANN is an internationally recognized cybersecurity leader, technologist, keynote speaker and author. During his distinguished career, Dan has served global organizations in the public and private sectors in a variety of executive leadership capacities, receiving numerous national awards including CSO of the Year, Public Official of the Year and Computerworld Premier 100 IT Leader. In 2017, Dan was awarded the cybersecurity breakthrough CISO of the year for global security products and services companies.

Lohrmann led Michigan government’s cybersecurity and technology infrastructure teams from May 2002–August 2014, in roles including enterprise-wide chief security officer, chief technology officer and chief information security officer.

Dan currently serves as the chief security officer and chief strategist for Security Mentor, Inc. Lohrmann is leading the development and implementation of Security Mentor’s industry-leading cyber training, consulting and workshops for end users, managers and executives in the public and private sectors. He has advised senior leaders at the White House, National Governor’s Association, National Association of State CIOs, U.S. Department of Homeland Security, federal, state and local government agencies, Fortune 500 companies, small businesses and non-profit institutions.

Dan has more than 30 years of experience in the computer industry, beginning his career with the National Security Agency. He worked for three years in England as a senior network engineer for Lockheed Martin (formerly Loral Aerospace) and for four years as a technical director for ManTech International in a US / UK military facility.

Lohrmann is the author of two books - Virtual Integrity: Faithfully Navigating the Brave New Web and BYOD For You: The Guide to Bring Your Own Device to Work. He has been a keynote speaker at global security and technology conferences from South Africa to Dubai and from Washington D.C. to Moscow.

Lohrmann holds a master's degree in computer science from Johns Hopkins University in Baltimore, Maryland, and a bachelor's degree in computer science from Valparaiso University in Indiana. Follow Dan on Twitter at: @govcsco

KATHY LOVEJOY, CPA, CISA, is a senior audit manager for the Illinois Office of the Auditor General. She has worked for the office for over 20 years. Her areas of responsibility include managing financial audits, compliance attestation examinations and information technology audits of various state agencies. In addition, she is responsible for the state of Illinois Service Organization Engagement. Ms. Lovejoy graduated from the University of Illinois and is a member of the American Institute of Certified Public Accountants and the Information Systems Audit and Control Association.

MARK MATHISON, CPA, CISA, CISSP, has extensive experience in accounting, auditing, compliance, and security risk management. Mark began his government career as an accountant for the Minnesota Office of the Governor. He then served as an auditor with the Minnesota Office of the Legislative Auditor, specializing in both financial and IT audits, and training and assisting staff on the use of many computer-assisted auditing tools. After many years of performing IT audits, Mark took a role working for the state of Minnesota’s central information technology agency, where he helped create the state’s first enterprise security program. After 11 years serving as an information security manager, Mark recently returned to the Office of the Legislative Auditor to lead its IT audit function.

Mark is a member of the Information Systems Audit and Control Association and has served as chapter president, along with a variety of other board positions. Mark also served as co-chair of the Multi-State Information Sharing & Analysis Center’s Cyber Security Metrics and Compliance Workgroup, where he facilitated and led national workgroup activities that focused on making recommendations and implementing methodologies to help states with cyber security metrics, compliance, assessments, and audits.

BECKY MURRAY, CPA, CISA, is an audit supervisor with the Michigan Office of the Auditor General with eleven years of audit experience. Her background includes financial, single, performance, and information technology audits. Becky has conducted audits of Oracle database controls, physical security and environment controls, and disaster recovery controls. Becky earned her bachelor’s and master’s degree in accounting from Michigan State University.

KATRIN OSTERHAUS, CIA, CGAP, CISA, CISM, PMP, came to the United States from Germany as a foreign exchange student. She received her M.B.A. from Washburn University in 1996. She started at the Kansas Legislative Division of Post Audit in 1998. During her tenure, she participated in and supervised performance audits on many topics. In her current role as IT audit manager, she oversees her team’s work on IT security audits. She also has several officewide functions, including the maintenance of the divisions’ operations manual, certain hiring and security clearance functions, and other assigned office improvement projects.

JOE SASS is currently an IT audit coordinator with the Minnesota Office of the Legislative Auditor. With a diverse technical background, Joe is known for his knack in being able to figure out how complex systems work and explaining them in simple ways.

Prior to joining the OLA, Joe held several technical and leadership positions within private technology companies and Minnesota IT Services. Joe holds a B.A. in both English and secondary education from St. John’s University, an M.A. in technical communication from Minnesota State University, Mankato, and is a certified Scrum master.

MELISSA A. SCHUILING, CPA, CISA, joined the Michigan Office of the Auditor General in October 1986. She was appointed audit division administrator in April 2011. Ms. Schuiling is primarily responsible for oversight of audits of the state’s information technology systems as well as performance audits of the Departments of Agriculture; Natural Resources; Energy, Great Lakes, and Environment; and Transportation. Prior to becoming an audit division administrator, Ms. Schuiling served the OAG as a principal audit supervisor and an audit manager.

Ms. Schuiling graduated from Ferris State University with bachelor of science degrees in accountancy and computer information systems. In 2019, she earned her master’s degree in accounting from Davenport University.
COLIN SHOGREN, CPA, CISA, PMP, started with the Wisconsin Legislative Audit Bureau in 2017 as the IT audit manager. Colin is responsible for managing IT audits within the bureau. Prior to the Audit Bureau, Colin was a senior audit manager at CUNA Mutual Insurance Group where he was responsible for the IT and operational audit functions. Colin obtained his master of accountancy from DePaul University and obtained a bachelor's degree in liberal arts and accounting from Governors State University in Illinois.

JESSE SOERRIES, CPA, CISA, is an audit supervisor with the Michigan Office of the Auditor General where he has worked for almost six years. Jesse obtained his undergraduate and graduate degrees from Grand Valley State University in Michigan. Jesse's audit experience with the OAG includes financial, performance, and IT-performance audits. Jesse was the senior auditor on the Network and Cyber Security Audit.
