Fellow CPAs and Colleagues:

Each year brings unique challenges and opportunities for the auditing and accounting profession—and this year will be no exception.

We are pleased to be able to again offer a hybrid training opportunity, so you can attend in person or virtually. We will be holding the live training session in Nashville at Lipscomb University, with a virtual option for anyone who is not able to join us in Nashville.

This year's training agenda will include a variety of topics of relevance to your professional endeavors:

- A review of emerging issues in governmental accounting and auditing, including developments from Congress, the U.S. Government Accountability Office and the U.S. Office of Management and Budget.
- An update on what's new in Tennessee, including updates on recent changes of various local government manuals and guidance and a fraud case study.
- A look at what's new in the world of pandemic funding and the effects on single audit.
- A general update on auditing standards from the AICPA (including the new Quality Management Standards) and GAO.
- A GASB update with a focus on 2024 changes to GAAP financial reporting.

Frank Crawford, president of Crawford & Associates, will be this year's primary speaker. Frank brings a wealth of practical experience to his training sessions, and we are very pleased to have him back this year. Joining him will be Chris Pembroke, partner at Crawford & Associates. We are pleased to be able to have David Bean, formerly of the GASB, with us to share his technical expertise. The two-day training will also feature speakers from the Tennessee Department of Audit, as well as Kinney Poynter, executive director of the National Association of State Auditors, Comptrollers and Treasurers.

Preparing you to efficiently and effectively perform audits of governmental entities is our goal. We hope you will join us for the 2024 Government Auditing Training.

Sincerely,
