OVERVIEW

NASACT is pleased to announce the latest in its series of training events addressing timely issues in government accounting, auditing, and financial management.

Join Jocelyn Quintos, director of accounting operations, City and County of San Francisco and Deloitte practitioners Jeff Goodwin and Sean Torr as they discuss the road to achieve compliance with the new Governmental Accounting Standards Board (GASB) Statement 87—Leases (GASB 87). GASB 87 will go into effect for state and local governments and public higher education institutions for reporting periods beginning after December 15, 2019.

GASB 87 redefines what a lease is and how leases are recorded on the financial statements. The new approach will result in most leases being recorded on the balance sheet for lessees and lessors, which is a new requirement. The analysis that must be performed on your organization's lease portfolio will be time consuming, and early preparation for implementation is **critical** to achieve timely compliance.

This webinar will provide a high-level overview of the new standard, focus on practical steps to take after leases have been inventoried, and lessons learned. Participants will also discover ways to address barriers to adoption upfront, develop a holistic strategy for evaluating lease portfolios, and explore ways to foster agency and institutional involvement.
