NASACT WEBINAR

Smarter Finance, Better Government

Wednesday, March 14, 2018

2:00 – 3:50 p.m. Eastern Time

CPE: 2 credits available

REGISTER NOW!

OVERVIEW

It's a given that government entities are adopting cloud applications to reap the benefits of cost savings and efficiency while retiring their on-premise applications. As governments turn to software-as-a-service solutions for their financial needs, they are beginning to reap the added benefits of new technologies such as artificial intelligence, enhanced analytics and blockchain. Join Bob Sabo, Oracle ERP/EPM Cloud Strategic Programs director, along with experts in the application of these leading technologies, in a journey that shows the future of finance. Discover how to:

- Improve business processes and citizen experiences with apps that can react, learn and adapt in real time based on historical and dynamic data.
- Apply blockchain cloud services to help prevent fraud, reduce transaction costs and speed up businesses processes.
- Employ advanced analytic capabilities to gain actionable insights.

AGENDA
